

The Polish Language Experts

Business Translation

Introduction

Wratislavia Translation House is a professional translation agency, seated in Wrocław, Poland, specializing in business, economic and IT texts, in particular in the field of SAP solutions and software.

Mission

Providing professional translation services within time and budget and supporting our clients in making the right decisions during the whole translation project.

Business translation

Translations for business are the main type of translations prepared by our agency. Our translators have a long experience in providing translation services for companies and a profound knowledge of our clients' needs and expectations. Our large team of experienced translators enables us to carry out big translation projects in this area.

Specific features of business translation

Time plays a key role in the translation of business documents. Although translations of this kind must be often prepared within a short time, we always maintain professional and quality standards. The translation of business documents can be done only using specialized translation software. This ensures the translation consistency and enables working with many files simultaneously.

Translation languages

Since the English language is the most popular business language and due to the fact that most of our clients are German companies or companies cooperating with German business entities, we provide business translations mainly from German and English into Polish, and from Polish into English and German.

We can offer you:
