

The Polish Language Experts  
**SAP Language Service Partner**

## Introduction

Wratislavia Translation House is a professional translation agency, seated in Wrocław, Poland, specializing in business, economic and IT texts, in particular in the field of SAP® solutions and software.

We specialize in translations from major European languages into Polish. We also prepare translations from Polish.

### SAP Language Service Partner

In July 2010, our agency, Wratislavia Translation House, was officially welcomed to the SAP® PartnerEdge™ Program as an SAP Language Service Partner.

SAP PartnerEdge Program represents one of the most renowned Partner Programs in the market. The membership in the SAP PartnerEdge Program confirms the reliability of the translation services provided by our agency, the competence of our translation team and our ability to deliver value to SAP Customers.

### Long-term cooperation with SAP

We would like to underline that our agency can now boast of this exceptional partnership thanks to a long-term experience in SAP translations and high qualifications of our translators specializing in the SAP area.

This is a result of many years of cooperation with SAP. Our agency has been operating on the market since 2005, and our team of translators specializing in SAP translations gained an in-depth knowledge and experience while working in the SAP Poland translation department before our agency had been founded.

## SAP Ecosystem

Today, we can proudly announce that translation services offered by our agency are used by numerous SAP Clients and Partners. Their satisfaction and references are the best award for us and a proof of our professionalism. We believe that for our future Clients from this ecosystem, the partnership with SAP will be the best guarantee of our competences and skills.

## Our SAP® translation offer

Our knowledge of the SAP® translation environment enables us to offer you translations of SAP® systems and solutions. Our long-term engagement in the translation of SAP systems into the Polish language guarantees that our team is also well prepared for translating documentation and materials for end users, descriptions of functionalities, presentations, proposals, requests for proposals, contracts, price lists and project-related documentation. While translating files outside a system environment, we use advanced translation tools that enable us to ensure the consistency of terminology.

## About SAP

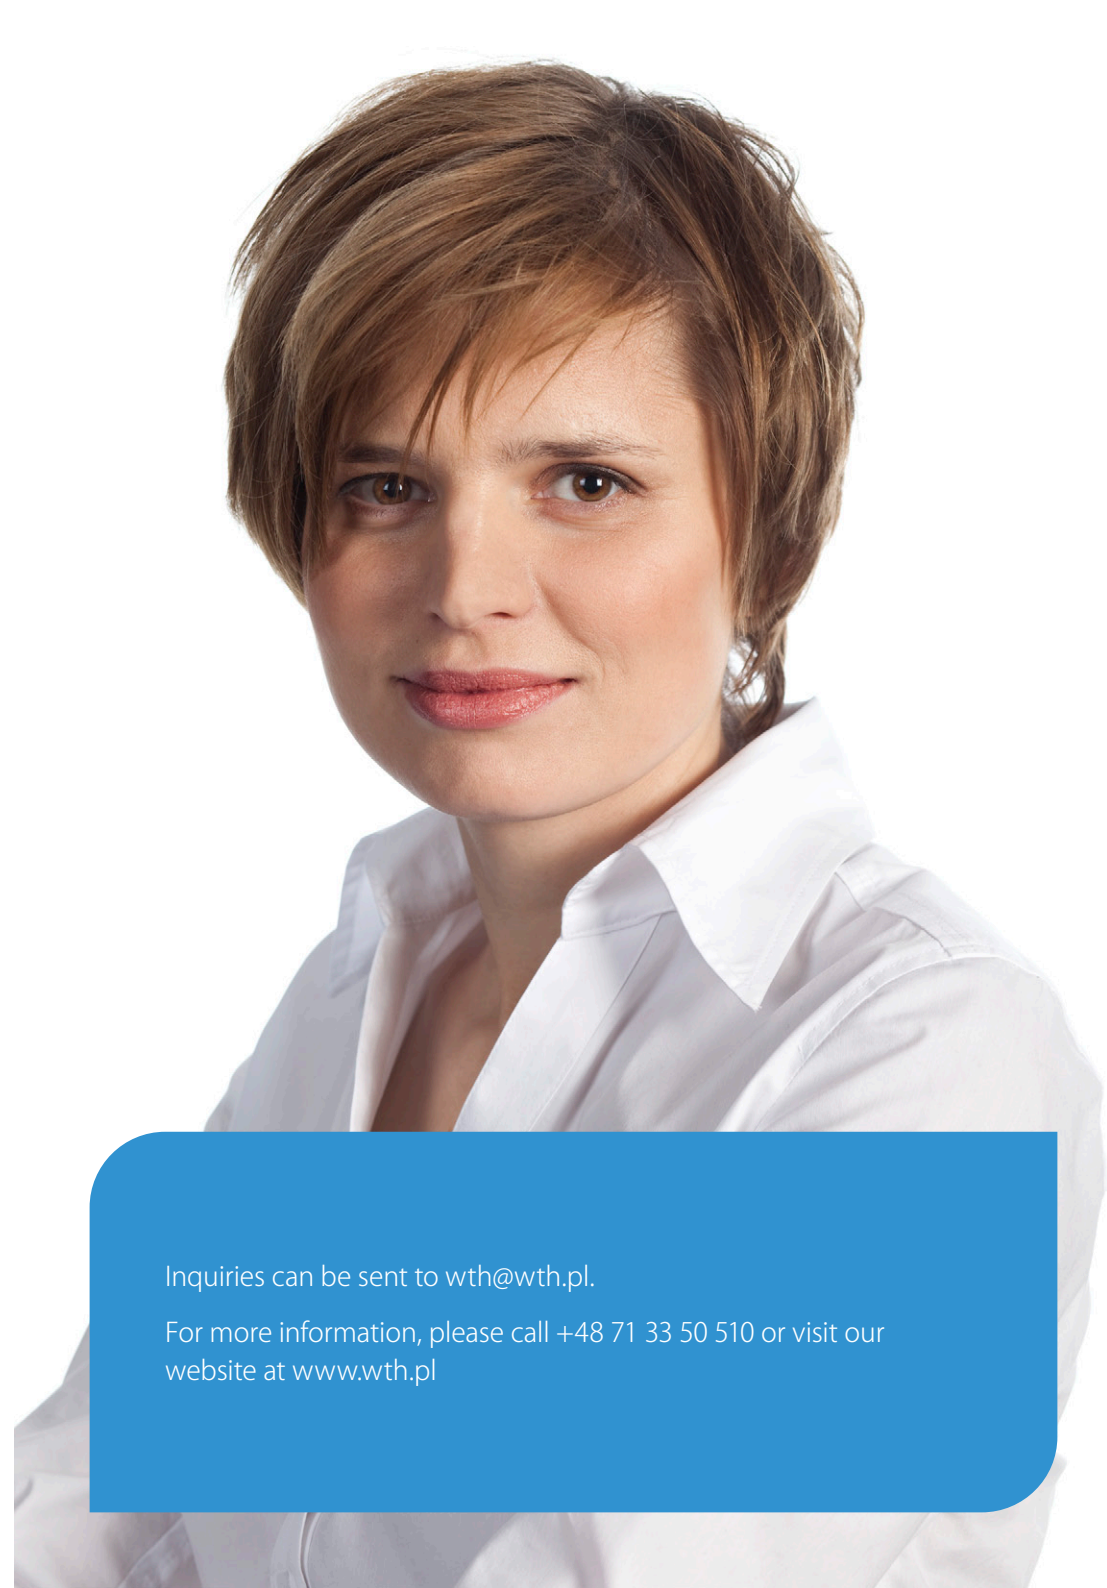

SAP was founded in 1972 in Germany. It is the world's largest provider of business applications. SAP offers solutions for more than 25 industries and has over 92,000 Customers in 120 countries. More information about SAP is available at [www.sap.com](http://www.sap.com).

## Do business with us

Our agency has the longest experience in translating specialized SAP systems and related materials on the Polish market. The professional team of experienced translators guarantees a high quality and timeliness of translation services.
